Can we amend our timecards today to add in our hours/OT for the end of the last PayPeriod?

John. Obviously, this is too complicated for me to figure out... what goes in PRC and in the Site/Project fields... I tried the 06 and 0X in the PRC code and neither would be found with the hourglass... I also tried H001 in the site project field... did not work... I tried H with the hour glass and it found nothing... what am I doing wrong...

With Regards, Steve
